|
2020

Data Science & Analytics Consultant

SponsorB

📍 São Paulo, SP, Brazil

- Predictive models with a focus on calculating retention rates and calculating customer value(churn rate and LTV prediction)
- Análise de perfil de consumo através de técnicas de clusterização, regras de associação e indicadores transacionais.
- Providing ad-hoc analysis and reports.
- Structuring the extraction process and measuring CRM campaigns.
- Conducting A/B testing and other statistical simulations.
- ML algorithms: Linear and Logistic regressions, decision tree, random forest, xgboost, k-means, PCA.

2020
|
2019

Data Science & Analytics Analyst

Ibope DTM

📍 São Paulo, SP, Brazil

- Descriptive, predictive and prescriptive analysis.
- Customer segmentation (RFM, LTV ..)
- Identification of consumption patterns(basket analysis, consumption segmentation...).
- Design of experiments and analysis of campaign measurement.
- ML algorithms: Linear and Logistic regressions, decision tree, random forest, xgboost, k-means, PCA.

2019
|
2017

Data Scientist

Bradesco Seguros

📍 Rio de Janeiro, RJ, Brazil

- Risk modeling for car insurance pricing.
- Driving behavior model based on telemetry.
- deployment of the driving behavior model in the pricing calculation at the renovation flow.
- Internal consultancy, serving different areas of the company with descriptive, predictive and prescriptive analysis.
- ML algorithms: GLM(poisson, gamma and logit), decision tree, k-means, PCA.

2017
|
2016

Intern

Naturgy

📍 Rio de Janeiro, RJ, Brazil

- Construction and automation of reports.
- Defining KPIs for follow-up.

FORMATION

2018
|
2015

B.S., Statistics

State University of Rio de Janeiro

📍 Rio de Janeiro, RJ, Brazil

- Conclusion Thesis: Model for identifying driving behavior, an approach applied to risk.

RESEARCH EXPERIENCE

2016
|
2015

Academic Research

IMS - UER

📍 Rio de Janeiro, RJ, Brazil

- Research project in the field of epidemiology, to identify the effect of burning on the birth of term or low weight children in MT.
- Work done in R language, with the need for scraping to extract and consume data from public agencies, such as SUS, INPE, INMET ..
